## Introduction and Background

Maria Egbert and Arnulf Deppermann	<b>1</b>	1	Introduction
Eleni Mourtou and Markus Meis	<b>2</b>	9	Introduction to audiology: Some basics about hearing loss, hearing technologies and barriers to hearing aid use
Maria Egbert, Simone Groeber, Jette Damsø Johansen, Eila Lonka, Markus Meis, Kati Pajo, Johanna Ruusuvoori and Louise Skelt	<b>3</b>	22	Hearing health care provision in the national systems of Australia, Denmark, Finland, Germany and Switzerland: Similarities and differences
Elizabeth Keating and Pirkko Raudaskoski	<b>4</b>	35	Theoretical framework: Communicative technology for augmented interaction within the field of Science, Technology and Society (“STS”)
Maria Egbert and Arnulf Deppermann	<b>5</b>	40	Introduction to Conversation Analysis with examples from audiology
Maria Egbert and Ben Matthews	<b>6</b>	48	User Centered Design: From understanding hearing loss and hearing technologies towards understanding interaction

## Analytical Chapters

### Examining hearing loss in authentic interaction

Louise Skelt	<b>7</b>	56	Dealing with misunderstandings: The sensitivity of repair in hearing impaired conversation
Kati Pajo	<b>8</b>	67	Difficulty to receive a spoken message due to hearing loss: Analysis of a private interaction between two sisters at a coffee table
Simone Groeber and Simona Pekarek Doehler	<b>9</b>	76	Hearing impaired adolescents in a regular classroom: On the embodied accomplishment of participation and understanding
Arnulf Deppermann	<b>10</b>	90	Negotiating hearing problems in doctor-patient interaction: Practices and problems of accomplishing shared reality
Maria Bonner	<b>11</b>	104	Some linguistic observations on testing hearing
Trine Heinemann, Ben Matthews and Pirkko Raudaskoski	<b>12</b>	113	Hearing aid adjustment: Translating symptom descriptions into treatment and dealing with expectations
Catherine Brouwer and Dennis Day	<b>13</b>	125	WHO/ICF guidelines and compliance in a hearing aid consultation
Minna Laakso	<b>14</b>	138	Aphasia as an example of how a communication disorder affects interaction
Elisabeth Gülich	<b>15</b>	146	Conversation Analysis as a new approach to the differential diagnosis of epileptic and non-epileptic seizure disorders
Arnulf Deppermann and Maria Egbert	<b>16</b>	159	Conclusions and future perspectives for application and innovation
